Environmentally Committed

Plant based diets
are encouraged with over half of the offerings on our menus begin vegan and vegetarian.

Local and organic

Sourcing as much food locally as we can. All our eggs, milk, butter, flour, sugar and teas are organic.

Reducing single-use packaging

We don't use single-use coffee cups. We encourage our clients to use our multiuse boxes for lunch. We use sustainable alternatives such as biocane plates, made from reclaimed plant fibre.

Free range

When using meat we only use produce that is free range, local and/or pasture fed.

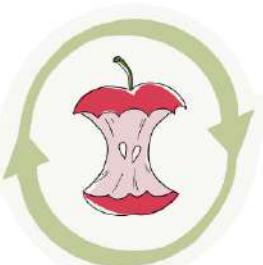

Our electricity

is supplied by Ecotricity, Britain's greenest energy company. And we've installed a large array of solar panels onsite to generate our own electricity and power our 100% electric kitchen.

Food waste

is collected by Heart of BS13 and added to their 'closed loop composting' machine at Hartcliffe City Farm. Other waste is also recycled.

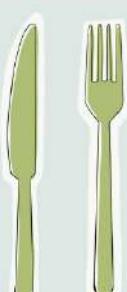

100% electric delivery vehicles

And the majority of our workforce cycle, walk or take public transport to work.

Surplus food

is redistributed to homeless charities in Bristol.
